Subject: Protocol #2022/06/1 - Approval Notification

Date: 06/27/2022

The protocol **Adaptive Microlearning: An Empirical Study Among the Students in the Rural Areas of China** has been approved by the IRB Chair under the rules for expedited review on **06/27/2022**.

The consent form is stamped with IRB approval and a three-year expiration date. You should use the stamped forms as originals for copies that you distribute or display.

The approval of your study is valid through 06/23/2025, by which time you must submit an annual report either closing the protocol or requesting permission to continue the protocol for another year. Please submit your report by **05/26/2025** so that the IRB has time to review and approve your report if you wish to continue it for another year.

If, prior to the next review, you propose any changes in your procedure or consent process, you must complete an amendment form of those changes and submit it to the IRB Chair for approval. Please wait for the approval before implementing any changes to the original protocol. In addition, if any unanticipated problems or adverse effects on subjects are discovered before the annual review, you must immediately report them to the IRB Chair before proceeding with the study.

When the study is complete, please terminate the study via Mentor by completing the form under the Continual Renewal tab at the bottom of your protocol page and clicking on terminate. Please keep a copy of your research records, other than those you have agreed to destroy for confidentiality, over a period of five years after the study's completion.

If you have any questions, feel free to contact me.
